

Thank you for considering my race for Governor.

I was born and raised in Yakima, got my business degree from WSU, spent 12 years as a small business owner, and dedicated the last 22 years of my life fighting for the taxpayers as an initiative activist (17 qualified, 11 passed, \$43 billion saved).

Now, with your help, I will fight for the people as Governor by building a winning team and succeeding together.

Obviously, I have strong beliefs. First and foremost, I have a deep distrust of consolidated power. **I don't trust Big Government** – I think government has way too much power and uses it

to control our lives (every initiative we've done limited government's power – see reverse). **I don't trust Big Business** – too often they use their power to get government to do their bidding ... at our expense. For example, I strongly oppose automatic ticketing cameras because they're just taxation-through-citation with government and out-of-state corporations teaming up to take more of our money (same goes for pay-per-mile taxes and tolling). **I don't trust Big Labor** – they're constantly using their power to coerce politicians to raise taxes. **I don't trust the Mainstream Media** – too often they're not watchdogs, they're just cheerleaders for Big Government, Big Business, Big Labor, and themselves.

**I believe taxes are way too high and need to be lower – starting with reducing vehicle tabs to \$30!! As Governor, I will veto ANY tax increase and there will NEVER be a carbon tax, income tax, or pay-per-mile tax as long as I'm in office** (it's an absolute certainty that Jay Inslee would impose all three in a 3rd term).

I believe in the Bill of Rights and I'm thoroughly disgusted with Jay Inslee and Bob Ferguson for constantly attacking the rights guaranteed by our state Constitution and U.S. Constitution (free speech, faith, the right to protect ourselves and our loved ones and our community).

Soon we will roll out **Governor Eyman's Contract with Washington** which will highlight my policy priorities as Governor. I look forward to hearing what you have to say about them.

I ask you to support this historic effort. Large & small contributions are desperately needed and sincerely appreciated. You can make a secure online donation here: **Tim4Gov.com**.
